why NABA

TO STUDY in **Milan** and **Rome**, the world capitals of **Culture, Fashion, Art** and **Design**.

TO COLLABORATE with **companies** and **institutions** in projects, internships and to benefit from many other opportunities.

TO GAIN a **multidisciplinary, global, experimentation-oriented** approach.

TO LEARN from **prestigious** faculty members and internationally renowned **professionals**.

TO ATTEND programmes in Italian and English and obtain a degree that is legally **recognised by the Italian Ministry of Education, University and Research (MIUR)**, as well as at an **international** level.

TO STUDY at a **multi-awarded** and globally ranked Academy, selected among the leading Design and Fashion schools by **DOMUS Magazine** and **FRAME Publishers**.

NABA

NABA, Nuova Accademia di Belle Arti is an internationally renowned Academy focused on arts and design. Founded in Milan in 1980 upon the private initiative of prominent artists such as Ausonio Zappa, Guido Ballo and Gianni Colombo, it is the largest private Academy in Italy and the first one to have been recognised back in 1981, by the Higher Education in Art, Music and Dance (AFAM) system, which is part of the Italian Ministry of Education, University and Research (MIUR).

Born with the aim of overcoming the limits of traditional disciplines to introduce visions and languages closer to the contemporary artistic practices and to the system of art and creative professions, NABA has been the first fine arts academy in Italy to offer recognised courses in Fashion, Graphics and Design.

NABA's growth has begun in the '90s, leading to collaborations with prestigious cultural institutions, further enriching its educational offer and opening its doors to an increasing number of international students from all over the world. In 2018, the Academy became part of Galileo Global Education, a leading international provider of higher education and, afterwards, opened a new campus in Italy's capital city.

With its two campus in Milan and Rome, the Academy currently offers academic degrees equivalent to first and second level university degrees in the Communication and Graphic Design, Design, Fashion Design, Media Design and New Technologies, Set Design, and Visual Arts Areas. At the end of the programmes, students obtain the necessary credits (CFA) to continue their studies either within Academies or Universities in Italy and abroad.

According to the last research conducted by Uni-Italia (Centre for the academic promotion and orientation of study in Italy) on AFAM institutes in the A.Y. 2018/19, NABA is the Italian Academy of Fine Arts with the highest number of foreign students, confirming its prestige as the most international Art and Design Academy in Italy.

Faculty and Visiting Professors:

Yuri Ancarani, Pierre Bal-Blanc, Paolo Bazzani, Alessandro Bertante, Davide Bignotti (Interbrand), Giorgio Biscaro, Stefano Cardini, Vincenzo Castella, Giovanni Chiaramonte, Roberto Maria Clemente (Fionda), Pietro Corraini, Ana Dević (WHW), Liu Ding, Davide Gatti, Franco Gonella (Vitaminic), Matteo Guarnaccia, Alessandro Guerriero, Daniela Hamaui, Hou Hanru, Ilaria Innocenti, Francesco Jodice, Francesca Liberatore, Francesco Librizzi, Marcello Maloberti, Christian Marazzi, Patrizia Martello, Fabio Martina, Giuseppe Mayer (Armando Testa), Miao Ran, Giacomo Moor, Adrian Paci, Hannes Peer, Francesco Pesaresi, Cesare Pietroiusti, Tim Power, Matteo Ragni, Sara Ricciardi, Simone Rizzo (Sunnei), Denis Santachiara, Simone Sarasso, Matteo Schubert (Alterstudio), Fabrizio Sclavi, Marinella Senatore, Serena Sinigaglia, Alessandro Stellino, Mario Trimarchi, Nomeda and Gediminas Urbonas, Alberto Zanoletti.

learning by thinking

Our programmes constitute a continuous sequence of multidisciplinary experiences generating research and projects in the artistic and professional contexts of current trends.

learning by doing

Ideas become projects, strategies, techniques and technologies, turning into prototypes and in some cases developing into products for the companies we work with.

teaching by learning

Learning by doing is also teaching by learning and this has changed the relationship between teachers and students: classes and groups have transformed into work teams that liaise continuously with companies and research institutes. Experience forms the methodological skeleton through which innovation insinuates itself and guides us in planning the future together.

Italo Rota,
NABA Scientific Advisor

MILAN

Milan is a city of significant international events such as the Fashion Weeks and the Design Week.

NABA's campus in Milan is located near the Navigli area, one of the liveliest areas of the city, and is inserted in a historical architectural complex consisting of 13 buildings - spread over approximately 17,000 sqm - that include students' study and lounge areas, a green area, several specialised laboratories, a library, and a cafeteria.

ROME

Rome is Italy's capital city, a showcase for art exhibitions, timeless and unique cultural places, and for important events such as the Altaroma Fashion Weeks and the Rome Film Fest.

The new campus in Rome occupies two historical buildings dating back to the early 20th century located in the Ostiense district, where artistic and cultural heritage meets contemporary culture. The campus covers an area of approximately 3,500 sqm with specialised laboratories, a library, as well as study and lounge areas.

AREAS

Communication and Graphic Design

Through the different study levels provided by the BA in Graphic Design and Art Direction, the MA in Communication Design and the Academic Master in Creative Advertising, this Area distinctively meets the continuously evolving needs of the field of communication, integrating an academic approach with the experimentation of visual languages.

Media Design and New Technologies

The purpose of this Area, which includes the BAs in Media Design and Multimedia Arts and in Creative Technologies, and the MA in New Technologies for Arts, is to expand knowledge and the most advanced media and creative technology-based methods to create complex and contemporary authorial and research projects.

Design

The Area includes the BA in Design and the MAs in Interior Design, in Product and Service Design, and in Social Design, providing skills and theoretical as well as practical tools to imagine and design the future, to approach elaborate ideas in a cross-disciplinary way, to manage complex processes, and to adapt to change and create scenarios.

Set Design

Through the BA in Set Design, offered by NABA since the beginning, this Area introduces students to the varied world of set and costume design for the show business and for live events, from opera to theatre plays, from dance to musicals to concerts, and to new kinds of sets for performances, exhibitions, events, music videos, and fashion shows.

Fashion Design

Developing through the BA in Fashion Design and the MAs in Fashion Design and in Textile Design, the Area focuses on theoretical and project-related topics, with a contemporary and innovative approach. The academic path provides the cultural and methodological tools to nurture talents and competencies, and to recognise fashion as an expressive language capable of interpreting the most original and contemporary demands.

Visual Arts

By means of the BA in Painting and Visual Arts, the MA in Visual Arts and Curatorial Studies, and the Academic Masters in Contemporary Art Markets and in Photography and Visual Design, this Area addresses contemporary art as a methodology that enables interdisciplinary and cross-cultural approaches, beginning with an in-depth investigation into the aesthetic, social and economic contexts, opening up to the challenges of the future.

Credit points in the Higher Education in Art, Music and Dance system (AFAM)

The AFAM Institutions use academic credits (CFA) which, just as ECTS - European Credit Transfer System, are based on the idea of “workload”. CFA and ECTS are fully equivalent (1 CFA = 1 ECTS). One CFA normally corresponds to 20-25 hours of student work spent between face-to-face activities with professors, and individual study, research and projects development. The average amount of academic work performed by a student in one year is conventionally calculated as 60 credits.

Awarded degrees and ministerial denominations

The degrees awarded at the end of AFAM programmes are First Level (Bachelor of Arts) and Second Level (Master of Arts) Academic Degrees and First Level Academic Master Degrees (Academic Master), recognised by the MIUR and equivalent to University Degrees. The BA in Creative Technologies corresponds to the ministerial name of “First Level Academic Degree in New Technologies for Applied Arts”; the MAs in Interior Design, in Product and Service Design, and in Social Design to that of “Second Level Academic Degree in Design”; the MAs in Fashion Design and in Textile Design to “Second Level Academic Degree in Fashion and Textile Design”.

FASHION SHOW 'THE BEST OF NABA'

Xhuljano Malaj

**Under Altaroma's patronage
ph. Luca Sorrentino**

For the first time ever, NABA took part in the most renowned fashion event in Rome, introducing its talents to Altaroma prestigious Roma Fashion Week, just a few months after the opening of its new location in the Italian capital.

A selection of the best 2019 projects created by young designers, alumni of the Academy's Fashion Design Area brought heterogeneous collections to the catwalk, which explore identities and visions linked to new scenarios and future trends.

A selection of the best alumni of the Fashion Design Area presented their own collections at Fashion Graduate Italia, the event promoted by Piattaforma Sistema Formativo Moda enabling fashion schools and academies to participate in fashion shows, talks, workshops and exhibitions to recount the present and imagine the future.

MAGAZINE 'SO YOUNG SO OLD'

Magazine edited by students of the BA in Fashion Design, Fashion Styling and Communication Specialisation, coordinated by the lecturers Paolo Bazzani and Michele Corradini

Each year, students on the Fashion Styling and Communication Specialisation create a magazine, overseeing its creative and graphic content and working closely with students studying Fashion Design Specialisation, in a sort of continuous creative workshop. The production of the magazine provides opportunities for students from different areas to interact and work together on a project involving various figures connected with the representation of fashion, such as art directors, stylists and graphic designers.

The 2019 edition of the magazine created for the *So Young So Old* Fashion Show contains numerous editorials developing this theme proposed by Nicoletta Morozzi, NABA Fashion Advisor. Young and old, two adjectives closely related to the idea of time take on different values in accordance with the values associated with them, constituting food for thought on fashion and its production sector.

FOUNDATION YEAR

The Foundation Year is a propaedeutic interdisciplinary programme aimed at candidates with a secondary school diploma or other appropriate diplomas, who do not meet all the admission requirements for their chosen NABA Bachelor of Arts. It provides applicants with adequate and sufficient linguistic and educational/cultural competences in the relevant fields to enable their enrolment on the first academic year of the BA of interest. The courses are taught in both English and Italian. Upon successful completion of the Foundation Year, students are awarded a certificate issued by NABA.

LEARNING OBJECTIVES

Improvement of language skills
Knowledge of methodologies
of the field of interest
Cultural education in Visual
and Applied Arts
Familiarity with the Italian
historical-cultural-social context

MAIN TOPICS

Portfolio
Presentation skills

CAMPUS Milan

ADMISSION PROCESS

Admission request

Admission evaluation

Result

Matriculation

As a private academy, NABA is regulated by the Higher Education in Art, Music and Dance system (AFAM), a division of the Italian university system governed by the Italian Ministry of Education, University and Research (MIUR). Under this accreditation, NABA upholds rigorous admissions standards, and its degree programmes have a restricted number of available places. For both European and non-European students, admission depends on the fulfilling of minimum educational and language requirements, and on passing an admission evaluation.

SCHOLARSHIPS AND FINANCIAL SUPPORT

NABA supports international talents with several scholarships and offers students access to financial support initiatives, portfolio-based scholarships, Early Enrolment scholarships, and DSU scholarships (Diritto allo Studio Universitario, as in “right to the university study”).

EARLY ENROLMENT SCHOLARSHIP

NABA awards applicants who meet the Academy's admission requirements and make an early decision to enrol with a 10% reduction on the total fees.

INDUSTRY RELATIONS AND CAREER SERVICE

Right from the first year, NABA offers its students various opportunities to approach and access the working world. In particular, it has implemented two services: Industry Relations and Career Service.

INDUSTRY RELATIONS

The Industry Relations office represents a bridge between the Academy and the working world, promoting collaborations with companies interested in the young, creative minds of our students.

These projects put students in touch with leading companies in the fields of design, fashion, graphics, communication and art, enabling them to gain an insight into how companies work and to prove their skills with the goal of creating their own professional future.

CAREER SERVICE

NABA's Career Service office supports students and alumni through:

- the building and development of their skills;
- support in the creation of their career path;
- the definition of personal branding tools thanks to a dedicated Career Coaching service;
- the opportunity of internships at leading companies in the relevant fields.

Students and alumni can find the perfect match with companies thanks to NABASym- plicity, the on-line platform where the former can showcase their curricula vitae and portfolio, and where the latter can advertise internships and job offers and select the profiles that best fit their requirements.

Every year, NABA's Career Service office promotes a Talent Harbour Week and a Talent Harbour Day, on-campus initiatives that offer students and alumni the chance to spectate round tables and to take part to recruiting sessions managed by prominent company representatives. This is also an occasion for them to receive market-focused updates in their fields of interest.

The Career Service office promotes the Job Corner; a service dedicated to recent graduates and alumni, in order to facilitate their entrance into the working world thanks to individual meetings and career orientation sessions.

and afterwards? how many students find a job?

country of work

Employment Survey by Ipsos Observer, international leading company in market research, the only one founded and managed by researchers. The Survey was conducted from February to May 2019 regarding alumni graduated in 2017.

INTERNATIONAL OPPORTUNITIES

In order to support international mobility, NABA has activated and continues to promote different cooperation agreements with institutions within the European Union (Erasmus+ Programme) and outside the European Union (bilateral student exchange

agreements). The Erasmus+ programme, as well as other international exchange programmes, offers students the opportunity to spend a period of fully recognised and accredited study at a partner institution as part of their study path.

STUDENT LIFE

student life

NABA's Student Life office assists the students during their academic studies proposing or facilitating numerous extra-curricular activities to foster integration and socialisation. These activities, promoted together with the Students' Council (*Consulta degli Studenti*), that is the main student representative body of the Academy, can include guided tours, recreational classes, and sports activities such as football, volleyball, basketball and table tennis. In fact, NABA annually promotes and supports the creation of Academy sport teams and their participation in official local university tournaments.

The students can benefit from the many agreements signed by the Academy with cultural and commercial services, including sports centres, copy shops, theatres, medical centres and restaurants, in addition to a medical assistance service provided by appointment at a private medical practice near the campus. NABA has also set up the Buddy Project: within this initiative, a group of second and third year students volunteer additional support to international students. In addition to creating a network of relationships with new students, the Buddy Project helps students to improve their language skills and their knowledge of different cultures.

housing

NABA's Housing office supports the students in finding accommodation in apartments managed by privates or selected providers. The apartments are close to the campus; the spots offered are single and double rooms in shared apartments with a maximum of 4 students, and independent studio flats from 30 to 60 sqm. On the Housing office website students can find pictures, prices, locations and types of equipment for every room and

can choose from a wide offer that meets every need. For any requirements, students can directly contact the NABA Housing office and be supported by the staff throughout the whole booking process.

FOR MORE INFO:

NABA Housing Office
info@milanhousing.it | www.milanhousing.it

library

NABA's Library features over 14 thousand books, 50 subscriptions to sector-specific periodicals and more than 500 DVDs related to the various study fields of the Academy. All of these resources are available to the students in the quiet and peaceful environment of the library, or can be taken home by students for longer consultations. A Materials Library has also been set up within the library, where more than 100 samples of innovative materials are exhibited for students to touch with their own hands. In addition, students can access, free of charge, ten of the most important online databases, including the Vogue Archive, Bof and WGSN, as well as more than 500 e-books.

LABORATORIES

NABA has numerous specialised laboratories directed at providing students with the professional tools to create complex and interdisciplinary design projects, recreating the concept of teamwork, where various fashion, design, communication, new technologies and art professions come together and collaborate.

design and set design areas

In addition to a Laser Cutting, 3D Printer and CNC Milling Machine area, where 3D models and prototypes can be created and numerous types of materials can be cut and engraved to create three-dimensional objects, the labs of Design and Set Design Areas have numerous state of the art tools and machinery, including those specialised in wood and plastic processing, a painting booth and a professional thermoforming machine.

fashion design area

NABA Fashion Design Area comprises numerous specialised laboratories where sartorial and knitwear activities are carried out to create apparel at various levels, through the FRAMIS and the SHIMA SEIKI machine and the LECTRA system, experimenting and assembling various materials, from the basics of creating garments or different kinds of details, up to the realisation of complex designs. The Dressmaking Lab is equipped with industrial sewing machines, presses, irons and professional racks, mannequins for men, women and children, in order to create garments and prototypes by experimenting and putting together differing materials. The Textile Lab is equipped with the tools required for the various stages of fabric dyeing while the Knitwear and Weaving Lab is a place for

research and study that holds a collection of approximately 4,000 fabrics that are for the main part coded and catalogued with technical data sheets.

media design and new technologies area

The Media Design Laboratory is held in several spaces to cater for the differing fields of Media Design and New Technologies Area. Audio and video equipment (professional cameras and video cameras such as the RED Gemini for digital film, optics, video screens, lighting and microphones) are available to students for use when developing new projects. They can also use the Green Screen/ Lighting Technology Lab, a completely darkened space for setting up photo sets and video, fitted with standard equipment such as different colour backdrops and lights of various types. Furthermore, all the necessary tools for editing, colour grading, visual effects, sound recording and mixing, 2D - 3D animation and virtual reality are available within the Techlab.

visual arts area

Activities involving various artistic representation techniques, using different materials, are available in the Labs of the Area. The Atelier is provided with easels and has a space dedicated to chalcographic engraving that is fully equipped, including for printing. NABA also has a Dark Room, that is, a space for photographic film development techniques.

NABA AWARDS

NABA has been selected by Domus Magazine as one of Europe's Top 100 schools of Architecture and Design and included by Frame Publishers in the guide to the 30
